**TO ALL MEMBERS OF THE COMMISSION  
AND THE SCIENTIFIC COMMITTEE**

**COMM CIRC 10/100 Corrigendum  
SC CIRC 10/56 Corrigendum**

21 September 2010

**Notifications for Scientific Research in 2010/11 – Korea  
Corrigendum to expected total**

In accordance with Conservation Measure 24-01, Members were advised by circular that Korea had submitted a notification for research fishing in Subarea 88.3 in order to investigate the stock status and biological characteristics of *Dissostichus* spp. (COMM CIRC 10/100–SC CIRC 10/56). However, the total expected catch of *Dissostichus* spp. was incorrectly reported in the circular.

The research fishing will be conducted by two (2) vessels which are expected to take up to 190 tonnes of *Dissostichus* spp. in Subarea 88.3 (i.e. 95 tonnes per vessel).

Andrew Wright
