10 April 2002

### CCAMLR *Statistical Bulletin*

A pdf version of Volume 14 of the *Statistical Bulletin* is now available on the CCAMLR website under 'PUBLICATIONS'. The paper version will be distributed to Members this week. This volume covers fishing activities during the split-years 1992 to 2001.

In addition, an electronic version of the *Statistical Bulletin* has been developed to complement the paper one as a research tool and is also available on the website. The electronic version allows users to access tables, maps and figures covering all split-years for which data are available, including the 10-year period reported in the latest paper volume. Only data published in the *Statistical Bulletin* are included in the electronic version, and users experienced with Microsoft Excel will be able to extract these data as required. It should be noted that care must be taken to ensure comparability between any extracts from the electronic version and the official published *Statistical Bulletin*.

Dr D.G.M. Miller  
Executive Secretary
