**CCAMLR Scheme of International Scientific Observation –
Scientific Observers Manual and Updated Logbooks and Cruise Report Format**

Members are advised that the revised *Scientific Observers Manual* is now available in English on the CCAMLR website '[Publications](#)' public domain webpage. French, Russian and Spanish translations will be made available in due course.

Members are also advised that, in accordance with the decisions made at the 2010 meetings of the Scientific Committee and the Working Group on Fish Stock Assessment, the scientific observer logbooks and cruise report format have been updated and placed on the website (www.ccamlr.org/pu/e/sc/obs/logbooks.htm).

National technical coordinators of scientific observer programs should ensure that their observers receive the revised manual and updated logbooks and cruise report format for use during the 2011 season.
