Notificación presentada por Reino Unido Prospección científica a ser realizada en 2012/13

A TODOS LOS MIEMBROS DE LA COMISIÓN Y DEL COMITÉ CIENTÍFICO

De conformidad con el párrafo 2 de la Medida de Conservación 24-01, se comunica a los Miembros que Reino Unido ha presentado una notificación para realizar una prospección científica de peces de fondo en la Subárea 48.3 en 2012/13 (adjunta). La prospección será realizada por el barco de pesca *Sil* entre el 18 de enero y el 1 de febrero de 2013.

**NOTIFICATION OF RESEARCH VESSEL ACTIVITY IN ACCORDANCE WITH
PARAGRAPH 2 OF CONSERVATION MEASURE 24-01**

Name and registration number of vessel: FV Sil (Registration No. 730450)

Division and subarea in which research is to be carried out: 48.3

Estimated dates of entering and leaving CAMLR Convention Area: the vessel plans to enter subarea 48.3 for research fishing between 18 January and 1 February 2013.

Purpose of research:

- to determine icefish standing stock to produce an assessment of icefish stock size for the derivation of a TAC, and for investigations into icefish population structure and management;
- to determine toothfish pre-recruitment population structure to contribute to the estimates of sustainable yield and assessments of the status of the toothfish stock;
- to collect biological data on the other major demersal fish species in the area such as *Champscephalus gunnari*, *Chaenocephalus aceratus* and *Notothenia rossii*;

Fishing equipment likely to be used: bottom trawl FP-120

The survey will aim to take not more than 5 tonnes of toothfish and not more than 10 tonnes of any other species of fish.
